Capital Construction Applications Being Reviewed

With the recent passage of a capital construction bill for school construction, the State Board of Education is reviewing past construction grant applications. Rochelle Elementary School District submitted a school construction grant for the possibility of replacing Lincoln School in 2003. The State's review of the applications will be establishing a priority ranking for schools and determining estimated amounts of grant money available. Local districts will still need to provide matching funds for construction projects. No specific time table has been established for notifying districts of eligibility or when money would be available.
